

847 Portable Enraf Terminal

Model Selection Guide
34-ES-16-11 Issue 2

An indispensable tool for configuring, commissioning, testing and servicing Enraf's field instruments.

Honeywell Enraf's quality line of microprocessor-based field instruments can be easily configured without opening them. The Portable Enraf Terminal (PET), a robust and compact device, is the key to externally accessing the Honeywell Enraf gauges regardless of weather or operating conditions. The PET provides an easy means of configuring, commissioning and verifying instrument settings without taking the gauge out of service.

847 Portable Enraf Terminal

Instructions

- Make the desired selections from Identification code for each position
- Check carefully for exclusion noted in the Identification code below.

Pos.	Key number								
	1	2	3	4	5	6	7	8	9
	U	*	*	*	8	4	7		

Identification code

Pos 1	W&M Approved								
U	No approval required/available								
Pos 2	Position not used								
*									
Pos 3	Position not used								
*									
Pos 4	Position not used								
*									
Pos 5, 6, 7	Product designation								
8	4	7	Portable Enraf Terminal						
Pos 8	Power supply battery charger								
A	230 V AC; 50 Hz Europe								
C	110 V AC; 60 Hz USA								
K	230 V AC; 50 Hz UK								
Pos 9	Safety Approvals								
A	ATEX Europe								
F	FM USA								
U	*	*	*	8	4	7	A	Y	Typical Identification Code
U	*	*	*	8	4	7			Your Identification Code

RS232-C PET Interface	1847.811
Service tool for interfacing the PET to a computer with RS-232C I/O. Used for extensive communication via a PC to the field instruments
